

Seeking Trustees

For charity increasing diversity, education and career opportunities in the live music industry

3T (Tour Tech Training) started as a free, practical training course for people from underrepresented gender and ethnic groups, equipping them with the skills and connections to begin careers as touring technicians.

Today - it is a vibrant network of industry professionals sharing knowledge, support and opportunities through training sessions and events as well as informal peer to peer networking.

We are looking for two trustees, including a chair, to join our board.

Do you have:

Experience on the board of a UK charity?

Availability for 4-8 trustee meetings per year (all remote)?

A passion for adult education or developing career opportunities and increasing diversity in the live music industry?
